

MAXFIELD T CANTO

Troop 105

Project Hours 402.50

Board of Review 01/15/16

EAGLE PROJECT 50 volunteers and I cleared a 2.5 acre forested area on the Brandywine Red Clay Alliance's property that is called the "Pine Knoll." While initially only pine trees were planted on the site, the area soon was overrun with predominantly "mile-a-minute" and "multi-flora" invasive plant life that began swallowing the once serene knoll. The intention of our project was to remove the unwanted vines and trees in order to restore the small forest to its initial glory, while also providing an outdoor classroom for the BRCA's summer camp and student engagement programs.

SCOUTING ACHIEVEMENTS SPL, PL; OA Ordeal; Philmont; Hornaday Award, Good Citizenship Award

FUTURE AMBITIONS See I'm hoping to further my knowledge and career path towards a more environmentally conscious field in order to contribute to the preservation of our natural world.

Eagle Project
