EAGLE PROJECT I built and installed two bulletin board kiosks for KAPRB at Pennock Park on the outskirts of Kennett Square. They were needed as a place for people who visit the park to find information on what is there and when. In the process of building the boards I had to get approvals from the committee of KAPRB, recruit people to help with my project, consult a carpenter to aid in the construction, and consult with members of the committee who had the tools necessary for installation of the boards into the ground.

FUTURE AMBITIONS I plan to go to a 4-year college to earn a bachelor's degree. I am currently undecided on my major but I am thinking maybe something in business. As far as a job I am also thinking of something in business maybe in a restaurant or in large corporation such as Apple or Google. I also plan to continue doing Cross Country and Track in my school and earning varsity letters for them.
