

THOMAS M FALCONE

Troop 222

Project Hours 278.05

EAGLE PROJECT My project consisted of refurbishing the outside chapel of Advent Lutheran Church. This included installing a Belgian block border, benches, constructing a pulpit using EP Henry block, as well as laying red pea gravel around the chapel. I did this project for Advent Lutheran Church because it has been on their list for many years and gives the congregation a more colorful, newer, and fresher outdoor chapel to use for their services, and to make it more useful for other church functions.

SCOUTING ACHIEVEMENTS OA Representative, ASPL, Historian; Triple Crown: Northern Tier, Philmont Scout Ranch, Florida Sea Base; Arrow of Light, World Conservation, Totin' Chip

FUTURE AMBITIONS After high school I plan on going to a 2-year college to study culinary arts. I have always enjoyed cooking meals, and ever since I started cooking, I wanted to do it as a career. I've decided that I want to go to college for culinary arts to pursue my dreams of cooking. As a 17 year old scout following these dreams, this is one that I hope turns into a reality.
