

CHARLES G STREITWIESER

Troop 22

Project Hours 169.71

Board of Review 05/18/16

EAGLE PROJECT My project was to design and construct a large installation known as a “Maker Space” for the Kennett Middle School Library. This installation consists of a large 2-sided board with activity spaces on each side. It is fully mobile on lockable casters. On one side of the large board there are pieces of 10”x10” LEGO sheet; the other side is steel sheet metal which works with a PVC pipe “marble run” that is reconfigurable.

SCOUTING ACHIEVEMENTS SPL, QM; OA; Silver Buckle, Ben Faber Scout Spirit Award, Lenni Lenape Good Citizenship Award

FUTURE AMBITIONS After graduating from high school and college, I dream of attending graduate school for business. Entrepreneurship is an interest and vocation I hope to realize on a greater scale after my time studying business. I hope to continue my love for sailing and sporting clay shooting. I hope Scouting can continue to be a positive part of my life.

Eagle Project
