

# CHRISTOPHER A GEHRKE

Troop 31

Project Hours 258.72

Board of Review 10/18/16

**EAGLE PROJECT** I constructed a stone and gravel path that runs from the edge of the road to the entrance sign at Pocopson Elementary. This path makes changing the announcements on the sign easier for volunteers and improves the appearance of the area. On either side of the path I installed a garden that adds color to the entrance. The shape of the path and the garden also bring emphasis to the plaque positioned at the base of the sign, which signifies that Pocopson is a National Blue Ribbon School.

**SCOUTING ACHIEVEMENTS** OA; NYLT; Philmont; Silver Buckle

**FUTURE AMBITIONS** After 4-years of working as hard as possible in high school, I hope to move on to a prestigious college that offers flexibility in choosing a major and in changing majors. I hope to go into engineering - possibly industrial or chemical - so that I can have a steady and trustworthy career throughout the rest of my life. I also hope to attend a college that would allow me to follow my passion for music and for technical theatre in some form or another - perhaps a jazz band club and a black box theatre.

## Eagle Project
