

DANIEL N CONCHA- PEDRAZA

Troop 222

Project Hours 214.07

Board of Review

EAGLE PROJECT This project was meant to prevent erosion and make the main stairway to the Jefford's Mansion at Ridley Creek State Park more aesthetically pleasing. I removed the weeds, spread mulch over an area of 1,000 sq. ft. covering both sides of the stairs, planted ground cover pachysandra, and installed landscape edging the bottom of the stairs. The goal is that the area on each side of the main stairway will be covered with pachysandra. Since the mansion is rented for wedding parties and they take pictures on the stairway, the landscaped ground looks cleaner and more visually pleasing.

SCOUTING ACHIEVEMENTS PL, Den Chief, Troop Guide. Arrow of Light, Citizen Scout Award (2014), 4x Golden Spatula winner in the troop cookout

FUTURE AMBITIONS My goals are to supersede my parents and be successful and be able to provide stability for myself and my family. I believe the best course of action would be to go to business school, marketing to be specific, because of the bountiful job opportunities.

Eagle Project
