EAGLE PROJECT I lead a group of youth and adults from inside and outside my troop. The project entailed photographing, organizing, and recording the location of headstones in the historic graveyard overseen by The Baptist Church in The Great Valley. The graveyard had never been mapped before. People will come to the church in search of family members or prominent historical figures, but before my project, the caretakers of the church had no way to direct people to the correct tomb. The pictures are valuable because any damaged stones can be compared to the undamaged stones in the photos for repair purposes.

FUTURE AMBITIONS I hope to attend a 4-year college in a residential area. I am looking to study journalism, with a long term goal of entering the investigative journalism field. I would like to continue to serve the community through service. I hope to continue to value honesty, integrity, and perseverance. I hope to also, in whatever way I can, at some point impart these values onto other people.
