

TYLER L SCHAFER

Troop 52

Project Hours 282.00

Board of Review 01/19/16

EAGLE PROJECT The project that I completed was building an information kiosk. The kiosk has a lockable display case on both sides for posting information. It was designed and built to fit within the natural park setting. It was constructed entirely of wood including the woodshake shingles. I built it for the community of East Fallowfield Township Community Park so that they would have a secure place to store information on upcoming events, maps and other important information.

SCOUTING ACHIEVEMENTS OA; NYLT, LNT, BSA Recruiter Training; Philmont

FUTURE AMBITIONS My future plans include graduating from school with good grades, going to college and getting a degree. Some colleges that I am looking at are Kutztown, Bloomsburg, Franklin & Marshall, West Virginia and Cabrini College. After college I plan on starting my journey in my chosen career. I also intend to look into joining a branch of the military to be able to serve my country and gain even more leadership experience.
