

JAMES W KIRKBY

Troop 50

Project Hours 107.00

Board of Review 07/15/16

EAGLE PROJECT I led a project at the Bryn Mawr Rehabilitation Hospital, which had an entrance with old, dying, overgrown bushes and shrubs. We tore out dying plants and replaced them with new, more aesthetic vegetation. We dug out 2 flowerbeds along the sidewalk to the entrance. We placed new plants, including small stonecrops. Previously, with the brown and unkempt plants, the entrance looked ill and disparaging, which was not an appropriate entrance for recovering patients. Now, as patients walk in each day, they will see the new, thriving plants and be inspired with hope.

SCOUTING ACHIEVEMENTS SPL, ASPL, PL, Troop Guide, NYLT Staff; OA Ordeal; NYLT; Jamboree 2013; Devon 50's Future Leader Award, Silver Buckle

FUTURE AMBITIONS I plan on attending a traditional university or a US service academy. I will study engineering in the hope that I can use it to aid other people. In college, I would like to swim for the school's team, qualify for the Olympic trials by my junior year, and make the NCAA Championship meet by senior year. Later, I would like to travel the world and, most especially, the US.

Eagle Project
