

# LEONARD Y CHEN

Troop 1

Project Hours 444.25

Board of Review

**EAGLE PROJECT** My project included the construction of a 100'x3' wide stone pathway split into 2 sections by a flight of wooden stairs, connecting the lower parking lot of my church to the road. The flagstone was placed in an alternating pattern with a few inches of screening underneath. The stairs were constructed using pressure treated lumber and included a 6' extension of decking to connect to the upper stone walkway. By providing an accessible and convenient path from the church to the road, this eliminates previous safety hazards of pedestrians walking along the church driveway alongside heavy traffic, worsened by seasonal weather conditions.

**SCOUTING ACHIEVEMENTS** PL, APL, Scribe, Den Chief; OA; Sea Base

**FUTURE AMBITIONS** I am currently enrolled in Conestoga HS but plan to seek higher education and a graduate degree. I do not have a rock solid idea of what I want to do, however I am confident that I will pursue a career in the life sciences. Furthermore, as an individual I plan on raising a family and settling in a house. I also aspire to stay healthy and remain active in the scouting program throughout my entire life.

## Eagle Project
