

# **LIAM P O'NEILL**

Troop 2

Project Hours 97.00

Board of Review 05/10/16

**FUTURE AMBITIONS** I plan to attend college and earn a degree in either electrical engineering or computer science. In school, I plan to continue to play jazz. I hope to jump right into the workforce with a job in my field. I enjoy computers, so I would hope to get a job that allows me to continue working with computers in some way. My ideal job would be to design and build computers or robots that are used to help others.

## **Eagle Project**
