

Bradley F Tollen

Troop 22

Project Hours 169

Board of Review 11/26/2017

Eagle Project My project is a wooden open-faced lost and found cabinet placed in a corner outside of the Charles F. Patton Middle School cafeteria in Kennett Square. The cabinet includes shelving for the various lost items. It also has a metal cross bar and hangers to be used as a coat hanger rack. My project will help the beneficiary and community because the previous lost and found at Charles F. Patton Middle School was a table with garments and various items strewn on top.

Scouting Achievements

ASPL, PL; OA Ordeal

Future Ambitions: I will be attending Penn State Altoona accepted into the college of engineering. I intend to major in aerospace engineering. My goal is to graduate college with a job already and be able to afford my own home within a few years of graduating.
