

# Richard R Magargee

Troop 31

Project Hours 194

Board of Review 4/25/2017

**Eagle Project** The pool staff at our local YMCA didn't have a good place to store their belongings while they worked. With help, I assembled and installed a set of open face lockers built from scratch. They were built out of furniture grade birch and were constructed in three segments off-site, before being transported to the YMCA for assembly and installation

**Scouting Achievements** PL, Den Chief, Webmaster

**Future Ambitions:** I plan to go to college and study computer science and video game design. Video game design is my main goal, but if I can't find a job in that field, a computer science degree could be useful. It's a dream of mine to create games for virtual reality.

## Eagle Project
