

Sajjad Ali Khan

Troop 31

Project Hours 263

Board of Review 2/9/17

Eagle Project My project is building 3 risers, or steps, for 3 first grade classrooms at Hillendale Elementary School. The risers are built from 2xs, 2x2s, 1x6s, plywood, and underlayment. The sides of the riser are stained and the top is padded and carpeted. Three inch casters are attached to the back of the riser to allow for easier movement. The riser is broken into 2 parts: the pedestal (main body of riser) and the drawer (fits into pedestal). The drawer moves into and out of the riser on drawer rails and provides extra storage space for the teacher.

Scouting Achievements

Den Chief, OA Ordeal, PL, OA, Brotherhood, NYLT, SPL

Future Ambitions: I plan to continue my education with a bachelor's degree and possibly a master's degree. I hope to attend the University of Michigan or Maryland for engineering. My career interests now include working in a large company for engineering. I am most interested in working in the bioengineering field or in the mechanical engineering field.
