

# Luke J Phayre

Troop 78

Project Hours 250

Board of Review 2/16/2017

**Eagle Project** Reclaimed the overgrown AME cemetery on Bacton Hill Road in East Whiteland Township, burial site for two African American Civil War veterans among others. People would drive by while we were working and stop to thank us for our work. After the ceremony, some relatives of people buried on the grounds visited. They were in tears and overwhelmed with gratitude for our work. I felt honored to be a part of such a special event. I am so thankful for all of the people who donated, time, energy and resources to make this possible.

## Scouting Achievements

Troop Historian, APL; OA

**Future Ambitions:** Scouting has made making personal goals easier, and the bar at which they are set has become higher as a result of Scouting. One of the many career options I have looked at is software engineering. Engineering is a market that is in high demand right now and something I enjoy doing. I hope to not only achieve personal success, but also to give back to the community. I plan on serving in the U.S. military after college, which has been an interest of mine since the fifth grade. I also plan to give back to the community by become an active volunteer through my church, by working in a soup kitchen or volunteering to help church events. I also hope to give back to Scouting by encouraging my children to be in Scouts and to become an active Scouter
