

Connor R Robinson

Troop 14

Project Hours 151

Board of Review 3/8/2017

Eagle Project I built two dual trash container units that act as housing structures for 50 gallon trash cans. These units not only hide the trash cans and their waste from sight, but protects the trash cans. While in these structures, the trash cans are protected from the elements and are away from animals. These units also prevent trash from blowing away and polluting the park or the Brandywine. This project was done for Shaw's Bridge Park in East Bradford Township.

Scouting Achievements

SPL, JASM; OA Brotherhood; Scout of the Year, Rookie of the Year, Silver Buckle

Future Ambitions: I plan on attending Penn State to study finance and business. I want to become very successful within the stock market, and may own my own company one day. I hope to get married and start a family of my own, creating a loving home and environment that eventually I can retire in. I also want to go out and travel the world, and see what the world has to offer me and what I can do for the world with volunteering and other charity works.
